Dear Greg –

Now that the work is complete, I wanted to thank you and your crews for your high-quality, professional response to our water damage problem. The emergency response was almost immediate and prevented more extensive damage, and the drywall and other repairs were completed very competently.

In addition, I appreciate your flexibility when we needed to re-schedule some of the work, adding time to its completion, and your patience with our changes to the work to be done.

I would not hesitate to recommend your services to others. Thanks again!

Sincerely,

Dan Beal
